

United Colour Limited

RCF Colour Range Based on Application.

1. Super wash stains. Available in any shade.
Create a marble transparent effect on RCF shape.
The effect can be altered via different dilution ratios.
2. Wash solid stains. Available in any shade.
Very quick method of decorated all RCF shapes with a solid tone colour.
3. Dry brush pigments. Available in any shade.
Applied by a sponge or brush to highlighted areas to achieve a 3D effect.
4. Low light pigments. Available in any shade.
Similar to dry brush but applied directly to base below highlight to enhanced 3d effect.
5. Wash rinse stains. Available in any shade.
Ideal for log base to create an even yet semi-trans base for creating a typical six colour log system.
6. Split colours. (Resist) Available in any shade. For use on split areas prior to dipping. The split will resist the wash by 80% leaving a aged look to the split. No need for drying.
7. Split colours. (Non Resist) Available in any shade.
For use on split areas after dipping. Leaving a fresh torn look to the split.
8. Effect Stain. Speckle stains, wet look stains; metallic stains, Hot Cure Stain, Metal & Glaze Stain, Flip Flop Range, and Hidden Red.
Classified as effect pigments for client diversification.
